“T.R. ABHILASHI MEMORIAL INSTITUTE OF ENGINEERING & TECHNOLOGY”

Approved By: HP Govt., AICTE and Affiliated to HPTU Hamirpur & HPTSB Dharamshala

The concept of Engineering has existed since ancient time as human devised fundamental inventions. Inventions are consistent with modern definitions of engineering exploring basic mechanical principle to develop useful tools and objects. Engineering is the discipline, art and profession of acquiring and applying technical, sensitive materials, structure, machines, devices and processes that safely realize a desired objective or invention.

Engineering education must evolve to keep pace with mighty changes occurring today in business, industry and society. Engineers must attribute and knowledge beyond traditional constraints of the classroom. Engineering education must accommodate current trends and future needs. We must enhance the flexibility of curricula. Our goal is to articulate the role of engineering education in the early part of the 21st century and to establish design specification that will enable our college to be a leader in shaping the future of engineering education. As such we have an obligation to address the full range of higher education namely teaching and learning, research and service to the community. Indeed these three elements must totally integrate if we are to be efficient in the pursuit of our mission.

Team work and partnerships is another major element in our design of engineering education. The team we organise is a partnership of scientists, engineers, and business people and society leaders. It is through these partnerships that the rapid pace and technology and increasing complexity of technology designed to serve society will flourish.

My message for the students who join TRAMIET is:-

- Be flexible in the face of rapid changes in the society & technology.
- Embrace and encourage creative problem solving.
- Facilitate the ability to integrate complex systems and technology.
- Seek partnerships with a variety of engineering and science discipline, with business, with leaders in education, with government and greater community.

I extend a very warm welcome to all the students who wish to join **TRAMIET** from forthcoming academic session. I assure all you will be fully equipped with state of art theoretical knowledge, innovative and creative practical skills and entrepreneurial attitude to achieve a brilliant success in life.

I wish grand success to all you and your endeavour of higher technical educational at **TRAMIET**.
